PROFESSIONAL PROFILE

Web Application Development (DAW) student with a solid foundation in software engineering (Java OOP, PHP, SQL). I distinguish myself by my ability to develop **custom solutions** (plugins, custom themes) and manage complex architectures, avoiding dependence on pre-built tools. Currently focused on integrating **Artificial Intelligence** into development workflows. Seeking to provide immediate technical value (Backend, DB, Optimization) while continuing my specialization.

TECHNICAL SKILLS

Software Development: Java (OOP, Swing/JFrame), C (Algorithms/Memory Management).

Full Stack Web Development: PHP 8 (Native), HTML5, CSS3, JavaScript (Vanilla), jQuery.

Databases: Relational design, MySQL/MariaDB (Complex queries, Subqueries, triggers).

WordPress Engineering: GPLv2 Plugin Development, Themes from scratch (.s), Customizer API, ACF, Polylang.

Tools & Systems: Git/GitHub, Migrations and Backups, Technical SEO, Figma, Responsive Design.

ENGINEERING PROJECTS

”Zalbi Aisia” Project (Freelance)

Jan. 2026 – Present

Web Architect & Full Stack Developer

Bilbao, Spain

- **Native CMS Architecture:** Development of an intuitive management system using *Custom Post Types* ('Inflatables', 'Events') and custom taxonomies, allowing the client to manage inventory without touching code.
- **PHP Backend Development:** Implementation of taxonomic filtering logic and global configuration via *WordPress Customizer API* integration (Dynamic WhatsApp button).
- **Frontend & I18n:** Multi-language infrastructure (Polylang: Basque/Spanish) and *Responsive Mobile-First* design optimized for Core Web Vitals (j1.5s load).
- **Integral Maintenance:** Server migration management, automated backups, security audit, and UI/UX prototype design in Figma.

IT PROFESSIONAL EXPERIENCE

Full Stack Web Developer (Internship)

Apr. 2025 – Jun. 2025

GLOCALIUM SERVICES S.L.

Bilbao, Spain

- **Backend Plugin Development:** Programmed two extensions for Contact Form 7 from scratch: a *CSV Exporter* (data sanitization for Excel) and a *DB Persistence* system (MySQL storage and admin viewer).
- **Integral Maintenance:** Server migration management, automated backups, security audit, and UI/UX prototype design in Figma.

Web Programmer (Internship)

Mar. 2022 – Apr. 2022

Asociación Educativa RECICLANET

Bilbao, Spain

- Development of a custom template and metadata optimization for SEO.
- Implementation of a digital catalog tracking system.

EDUCATION

Higher Technician in Web Application Development (DAW)

2024 – (In progress)

Zornotza FP

Amorebieta-Etxano Currently completing first year: Java, Databases, Markup Languages, and Development

Environments.

Introduction to AI Development Certificate

Mar. 2026

BIG School

Online 6-hour course.

Programming Piscine and First Campus Year (C & Shell)

Sep. 2022 – Oct. 2023

42 Urduliz (Telefónica)

Bizkaia

Level 3 Professional Certificate (Web Development)

2021 – 2022

Fundación EDE

Bilbao Average grade: 9.0. Application Development with Web Technologies (590h).

ADDITIONAL INFORMATION

Languages: Basque (Native), Spanish (Native), English (Advanced, fluent communication).

Other Experience (Soft Skills):

- **Security Assistant** (On Plus, 2024-26) and **Event Logistics** (Penny Norte, 2023-24): Development of responsibility, working under pressure, and real-time incident resolution.
